WORK EXPERIENCE

Safe Streets USA, LLC
2019 - Present

UX Designer

Delivered biweekly project updates and performance metrics to stakeholders, ensuring transparency and alignment with strategic objectives. Developed high-fidelity, interactive prototypes in Adobe XD, facilitating effective design evaluation and decision-making. Collaborated with business stakeholders and the marketing team to create user-focused designs that met business objectives.

Safe Streets USA, LLC
2020 - Present

Front End Developer

Developed engaging web applications using HTML, CSS, Bootstrap, and TypeScript, driving a significant increase in site traffic, reaching 136,000 unique users. Managed the design and execution of complex front-end development projects from inception to delivery, collaborating closely with backend engineers to seamlessly integrate front-end components with server-side logic. Led the design and expansion of customizable templates, increasing options for partner companies from 2 to 14.

Safe Streets USA, LLC
2022- Present

Salesforce Administrator

Maintained optimal system performance by troubleshooting and resolving complex Salesforce issues. Ensured data accuracy and consistency across the organization through regular updates. Collaborated with stakeholders to gather insights and implement new features, leading to optimized business processes.

EDUCATION

Brigham Young
University - Idaho
2017-2022

Bachelor of Science in Web Design & Development

Gained skills in programming, web development, and media for the workforce.
